Bernalillo County

**Territory of New Mexico
1885**

INTRODUCTION

This index of names enumerated in Bernalillo County, New Mexico, part of the 1885 Territorial Census, is based upon the microfilm copy of the census found at the National Archives and Records Service, Washington, D.C. ("NARA"). With the exception of Enumerator Districts 35 and 36, being a portion of Taos County, the indexes for the 1885 Census will not be prepared using the partial copy of the 1885 Census contained in the Territorial Archives. For an explanation of the inadequacy of the Territorial Archives copy of the census, see Myra Ellen Jenkins & J. Richard Salazar, *Calendar to the Microfilm Edition of the Territorial Archives of New Mexico* (N.M. Records Center & Archives, Santa Fe: 1974), pp. 27 & 28. This index is also not based upon the partial copy of the Census taken for the purposes of the incorporation of New Albuquerque in April, 1885. For an explanation of the April 1885 special census, see Mark Thompson, "The 1885 New Mexico Census: A Hidden Gem," *New Mexico Genealogist* (Vol. 46, No. 1, March 2007), pp. 21 & 22.

[The following is reproduced from the pamphlet describing NARA Micropublication M846, "Schedules of the New Mexico Territory Census of 1885."]

"On the six rolls of this microfilm publication are reproduced the schedules of the census of New Mexico taken by the territory in 1885, in part with funds provided by the Federal Government. All counties of the territory are represented.

The act of March 3, 1879, providing for the taking of the 10th and subsequent censuses, made provision for any State or territory to take a "semi-decennial" census

“according to the schedules and forms of enumeration in the census of the United States.” A “full and authentic copy of all schedules returned” was to be deposited with the Secretary of the Interior on or before the first day of the following September. If a State of territory complied with these provisions it was to receive from the Federal Treasury 50 percent of the amount paid to all supervisors and actual enumerators within the State of territory in the preceding U.S. census. Furthermore, this sum was to be increased by one-half the percentage of gain in population in such State or territory between the two U.S. censuses immediately preceding the State of Territorial enumeration.

In accordance with this act, censuses were taken in 1885 in the States of Florida, Nebraska, and Colorado, and in the Territories of New Mexico and Dakota, and the required copies were filed in the Office of the Secretary of the Interior. They were later transferred to the Office of the Director of the Census Bureau. No editing or publishing of the returns was ever done by the Federal Government. With the exception of those for the Territory of Dakota, the copies were transferred by the Bureau of the Census to the National Archives in 1944.

The Census of 1885 of New Mexico was taken as of the first day of June on the four general schedules of population, agriculture, manufactures, and mortality. A schedule for social statistics was authorized but not used.

The schedules measure about 16 by 21 inches and are organized alphabetically by county and hereunder by the number assigned to each type of schedule, i.e., population, agriculture, manufactures, and mortality. Within each type of schedule the records are arranged by Enumeration District. The pages of each type of schedule are numbered in sequence; however, each enumerator began a new sequence of pages. Schedules 1, 2, 3, and 5 have, respectively, spaces for 50, 10, 45, and 36 line entries (schedule 4 was the one authorized but not used).

Following the schedules there appears the authentication, dated August 10, 1885, by the Superintendent for the Taking of the Census of New Mexico.

These records are in the National Archives and are a part of the Records of the Bureau of the Census, Record Group 29. The records reproduced in this microfilm publication were prepared for filming by Kathleen E. Riley, who also wrote these introductory remarks and provided the other editorial material.

The schedules of the 13 counties of New Mexico are reproduced on rolls 1-6 as follows:

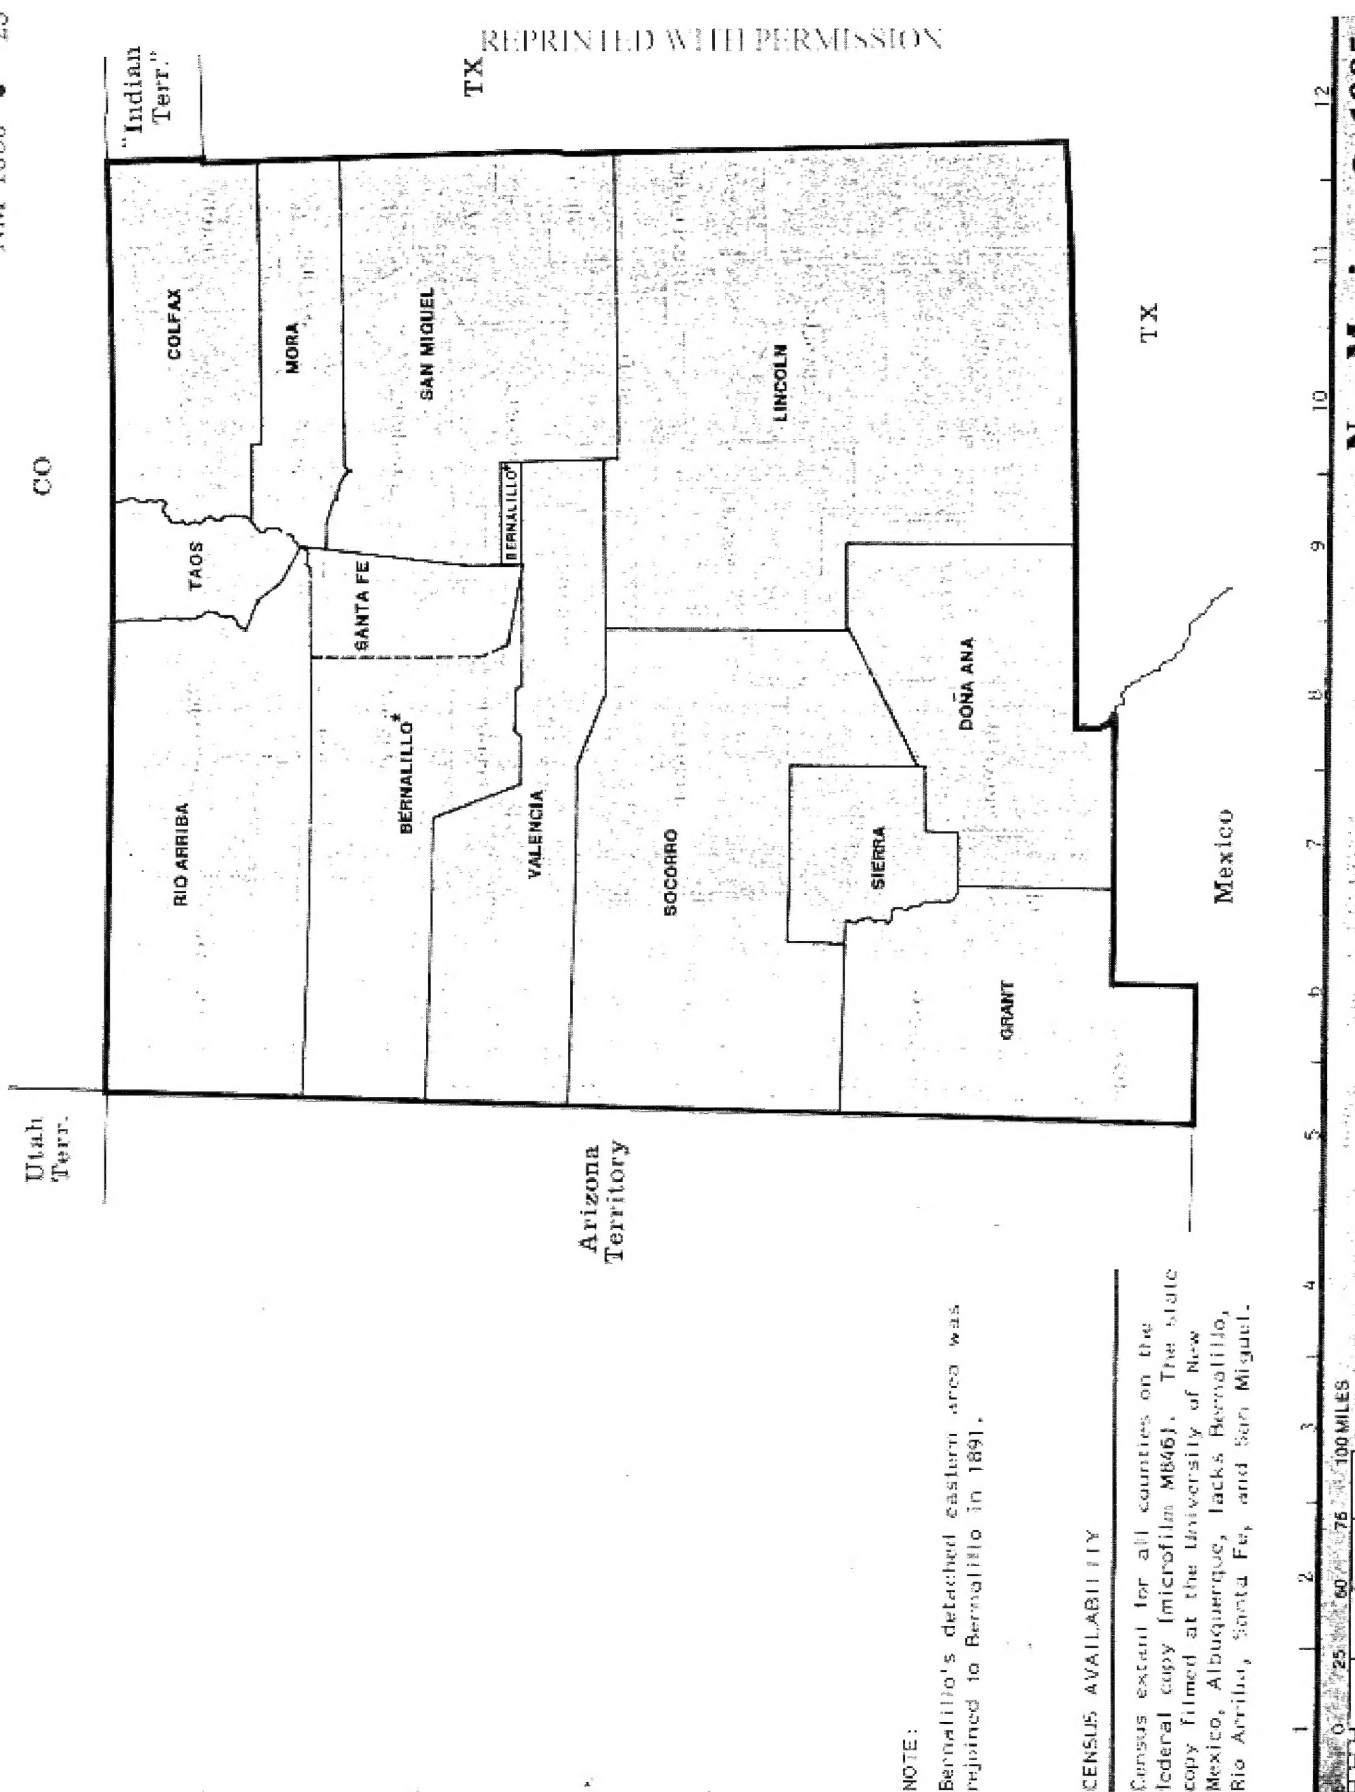

<u>Roll</u>	<u>Counties</u>
1	Bernalillo
2	Colfax, Dona Ana, Grant and Lincoln
3	Mora and Rio Arriba
4	San Miguel
5	Santa Fe, Sierra and Socorro
6	Taos and Valencia”

The 1885 Census Index prepared by the Albuquerque Genealogical Society will be published in 6 volumes, each volume corresponding to the NARA microfilm rolls described above.

Special thanks to those persons who made the publication of this index possible: the staff of the Special Collections Branch of the Albuquerque Public Library, Joe Sabatini, Gail Rasmussen and Kathryn Aragon; the computer wizards, Eldon ("Don") Pierce and Marti Adams; and last, but never least, the volunteers who worked so hard to decipher the names left us by the census enumerators for Bernalillo County, Howard W. Henry (also chairman of the Publications Committee), Ann Mossman, Diana Duran and Helen Truscott.
